

INSTRUCTIONS FOR CONTRIBUTORS

Journal of Chemical Engineering of Japan is a monthly English-language publication of the Society of Chemical Engineers, Japan (*SCEJ*). The Journal publishes original research in fields of chemical engineering ranging from fundamental principles to practical applications. The review process of submitted manuscripts will be overseen by one of the editors listed on the inside of the front cover. Submission of a manuscript implies that it has not been published or considered for publication elsewhere (except author's own patent disclosures). Authors should submit their manuscript files online. Only PDF files are accepted. Prospective authors should go to the journal web page (<http://www.scej.org/jcej/>) and follow the instructions for submitting a manuscript. If you have any questions about the submission process, you may contact the editorial office.

The Editorial Office:

The Society of Chemical Engineers, Japan
Kyoritsu Building, 6-19, Kohinata 4, Bunkyo-ku,
Tokyo 112-0006, Japan
FAX: +81-3-3943-3530
E-Mail: journal@scej.org

SUBJECT AREAS

1. Physical Properties and Physical Chemistry,
2. Transport Phenomena and Fluid Engineering,
3. Particle Engineering,
4. Separation Engineering,
5. Thermal Engineering,
6. Chemical Reaction Engineering,
7. Process Systems Engineering and Safety,
8. Biochemical, Food and Medical Engineering,
9. Micro and Nano Systems,
10. Materials Engineering and Interfacial Phenomena,
11. Energy,
12. Environment,
13. Engineering Education,
14. General Research and Others

TYPES OF CONTRIBUTION

- 1) **Research Papers:** Significant and complete research works. Six printed pages maximum.
- 2) **Short Communications (SC):** Brief reports or research notes. Three printed pages maximum.
- 3) **Letters to the Editors:** Comments and discussion on published papers in the journal. One printed page maximum.
- 4) **Journal Reviews:** Critical reviews or keynote papers in important areas of chemical engineering. Prospective authors are asked to consult with one of the Editors to check the suitability of their topics.

MANUSCRIPT PREPARATION

Manuscripts must be written in English typed in two columns fifty-seven lines per column on numbered pages of A4 or US letter size. Authors are recommended to refer to recent issues for guidance on style. Online journal volumes are available:

<http://www.jstage.jst.go.jp/browse/jcej/>

To facilitate the reviewing process, authors are requested to upload a single PDF file for submission.

- 1) **Title and Authors:** This should contain the following items in the given order.
 - i) Title.
 - ii) Authors' names (given name, middle initial and surname), affiliations and addresses. If authors' affiliations differ, these should be identified by use of superscripts 1, 2, etc. Identify the corresponding author and give the telephone number, fax number and e-mail address.
 - iii) If the research has been presented in part at a meeting, give the name, place and date of the meeting.
- 2) **Abstract:** A brief summary (less than 300 words for research papers and journal reviews and 150 words for SC) of scope, significant results and conclusions, followed by five keywords. Each keyword should consist of not more than three words.
- 3) **Main Text:** For example, main headings will be Introduction, 1. Experimental, 2. Results, 3. Discussion, Conclusions, (Appendix), (Acknowledgment), Nomenclature, Literature Cited. Leave a blank line above and below each main heading.
 - i) **Equations.** Number equations in order with parentheses. Cite as Eq. (1), Eqs. (3) and (5). Spell out "Equation" at the beginning of a sentence.

- ii) **Figures and Tables.** Include figures and tables in the most appropriate places within the main text. Do not place them on separate pages. Each figure and table must have a caption. Cite as Figure 1, Figures 2 and 3, Table 1. Color figures incur extra charges.
- iii) **Literature.** Cite in the text as follows:
Carslaw and Jaeger (1960), Tan and Liou (1989a, 1989b), (Carslaw and Jaeger, 1960), (Tan and Liou, 1989a, 1989b).
- iv) **Units.** The use of SI units is recommended.
Examples: k [W/(m·K)] or k [W·m⁻¹·K⁻¹], $k = 0.58$ W/(m·K) or $k = 0.58$ W·m⁻¹·K⁻¹.
- v) **Chemical Nomenclature.** Use IUPAC or Chemical Abstract conventions.

- 4) **Nomenclature:** List symbols in alphabetical order with their definition and SI units. Greek letters, subscripts and superscripts should follow Roman symbols.
- 5) **Literature Cited:** Arrange in alphabetical order according to first author, patentee or editor. Refer to recent issues for the style. Important note for authors citing articles written in Japanese. The Journal of Chemical Engineering of Japan (JCEJ) requests authors to use only romanized text in Journal articles. If the cited work has an official English translation, authors are requested to use that translation. However, if the cited work does not have an official translation, authors are requested to translate the information into English and provide both English and romanized Japanese.

Citation of works in Japanese should be provided by authors as follows: For references that have an official English translation, the English should be used directly. For references that do not have an official English translation, authors are requested to

- i) write the journal title in romanized text (e.g. Kagaku Kogaku Ronbunshu),
- ii) for the case of books or patents, translate the title into English and provide both English and romanized Japanese, and
- iii) translate the article's title into English and include the phrase (in Japanese) just after the title.

Examples:

Carslaw, H. C. and J. C. Jaeger; *Conduction of Heat in Solids*, 2nd ed., pp. 198–201, Clarendon Press, Oxford, U.K. (1960)
Konno, M., T. Muto and S. Saito; "Coalescence of Dispersed Drops in an Agitated Tank," *J. Chem. Eng. Japan*, **21**, 335–338 (1988)
Primack, H. S.; "Method of Stabilizing Polyvalent Metal Solution," U.S. Patent 4,374,104 (1983)
Kameyama, H.; "Production Method of Thermal Conductive Catalyst," Japanese Patent Disclosure H02-144154 (1990)

AFTER ACCEPTANCE

For the typesetting of the publication, authors will be required to submit original text and figures online in separate files. All the figures should be of professional quality.

COPYRIGHT

Authors must send a copyright transfer statement (CTS) to the editorial office. No article can be published without a signed CTS, which serves a transfer of copyright from the authors to *SCEJ*.

PAGE CHARGES AND REPRINTS

There are no page charges. However, authors are requested to purchase a minimum of 50 reprints at the prices shown below in the Price List of Reprints. Discounted prices are available upon request for authors resident outside Japan. Requests should be made at the time of submission of a manuscript.

CONTRIBUTORS IN JAPAN

At least one author should be a *SCEJ* member.

PRICE LIST OF REPRINTS (in Japanese Yen)

No. of Pages	Research Paper		Short Communication	
	50 reprints	100 reprints	50 reprints	100 reprints
2	21,000	23,000	21,000	23,000
3	27,000	30,000	27,000	30,000
4	33,000	37,000	36,000	40,000
5	39,000	44,000	45,000	50,000
6	45,000	51,000	—	—
7	54,000	61,000	—	—
8	63,000	71,000	—	—
